

## EGEA Resource Center Online Catalog

USAID/AFR/SD

As of March 2003, the EGEA Resource Center consists of the former ANRE material, that being agriculture and natural resources management, including country documents. The entire collection is located at 1325 G Street NW, Suite 400. To locate a particular document, go to: [www.AFR-SD.org](http://www.AFR-SD.org)

click “publications” at the top

under EGEA, click on “Search the EGEA resource center database”

### \*Searching

Search author, title, or keyword. You can combine terms using Boolean operators “and” “or” .

Example: East Africa AND environmental assessment  
child labor AND West Africa  
Kenya OR Tanzania

A CONTROLLED VOCABULARY is used for the keyword field.

Example: if you search *animals* as a keyword, you will get zero results because the keywords are either *livestock* or *wildlife* (depending on which animals you want).

Chose “all indexed fields” if you want to search title and keywords at the same time.

Most organization names are in their ACRONYM form, such as IFPRI, MSU or WARDA. ACRONYM and KEYWORD lists are available upon request. These are listed in the Resource Center Manual located in the Center or consult the G Street U drive (U/AfrPub/ANRE/Resource Center/).

Words are automatically truncated, so if you put in *agric*, you will get agriculture and agricultural.

\*It is preferable to use ADVANCED SEARCH over quick search. Qyquick Search does NOT search the title field. If you use QUICK SEARCH, use only one word or put a phrase in quotations. (It’s very particular: if you search *food security*, it will give zero results, but “*food security*” in quotes brings a large result.).

**Location** – all titles as of March 2003 are at 1325 G Street NW, Suite 400.

**Letter Locations** (such as A5.5 or G2.8) are in the Resource Center.

Locations that start with “**Country Docs**” are in the hall outside the kitchen.

**Results**. To print a list of references:

- check the empty boxes to the left of the titles that you want to include, then “show marked list”
- only one page at a time can be printed. After printing first 10 citations, bring up 2<sup>nd</sup> page and print them separately.
- For a “clean” bibliography, “copy and paste” the citations onto a word processing file.

**Help** – Contact the TMG staff 219-0505
